VENDOR VERIFY

REDUCE DUPLICATE VENDOR PAYMENTS AND STANDARDIZE MASTER DATA

BDO Digital Labs is your trusted advisor for all things product development. Our comprehensive suite of products and services is designed to set you up for success when taking a product to market.

OUR TOOL

Vendor Verify is a tool within our suite of solutions that allows companies to standardize their vendor master data. Without great controls, a vendor master file can quickly get unwieldy, and the task of choosing the right vendors can be daunting.

STANDARDIZE THE FOLLOWING DATA FOR ALL YOUR VENDORS:

- ► Tax ID number
- ► Address
- ► Name
- ► Phone
- ► Website
- ► Email contacts
- ► Business type

Vendor Verify allows for simplified workflow and easier cleanup. Within the app, users can edit records and easily remediate duplicate vendors.

THE RESULT?

Reduced duplicate payments and improved vendor master controls.
